○ kids dream
○

let them, they do it
much better than us

kids create

give them ingredients,
not ready made objects

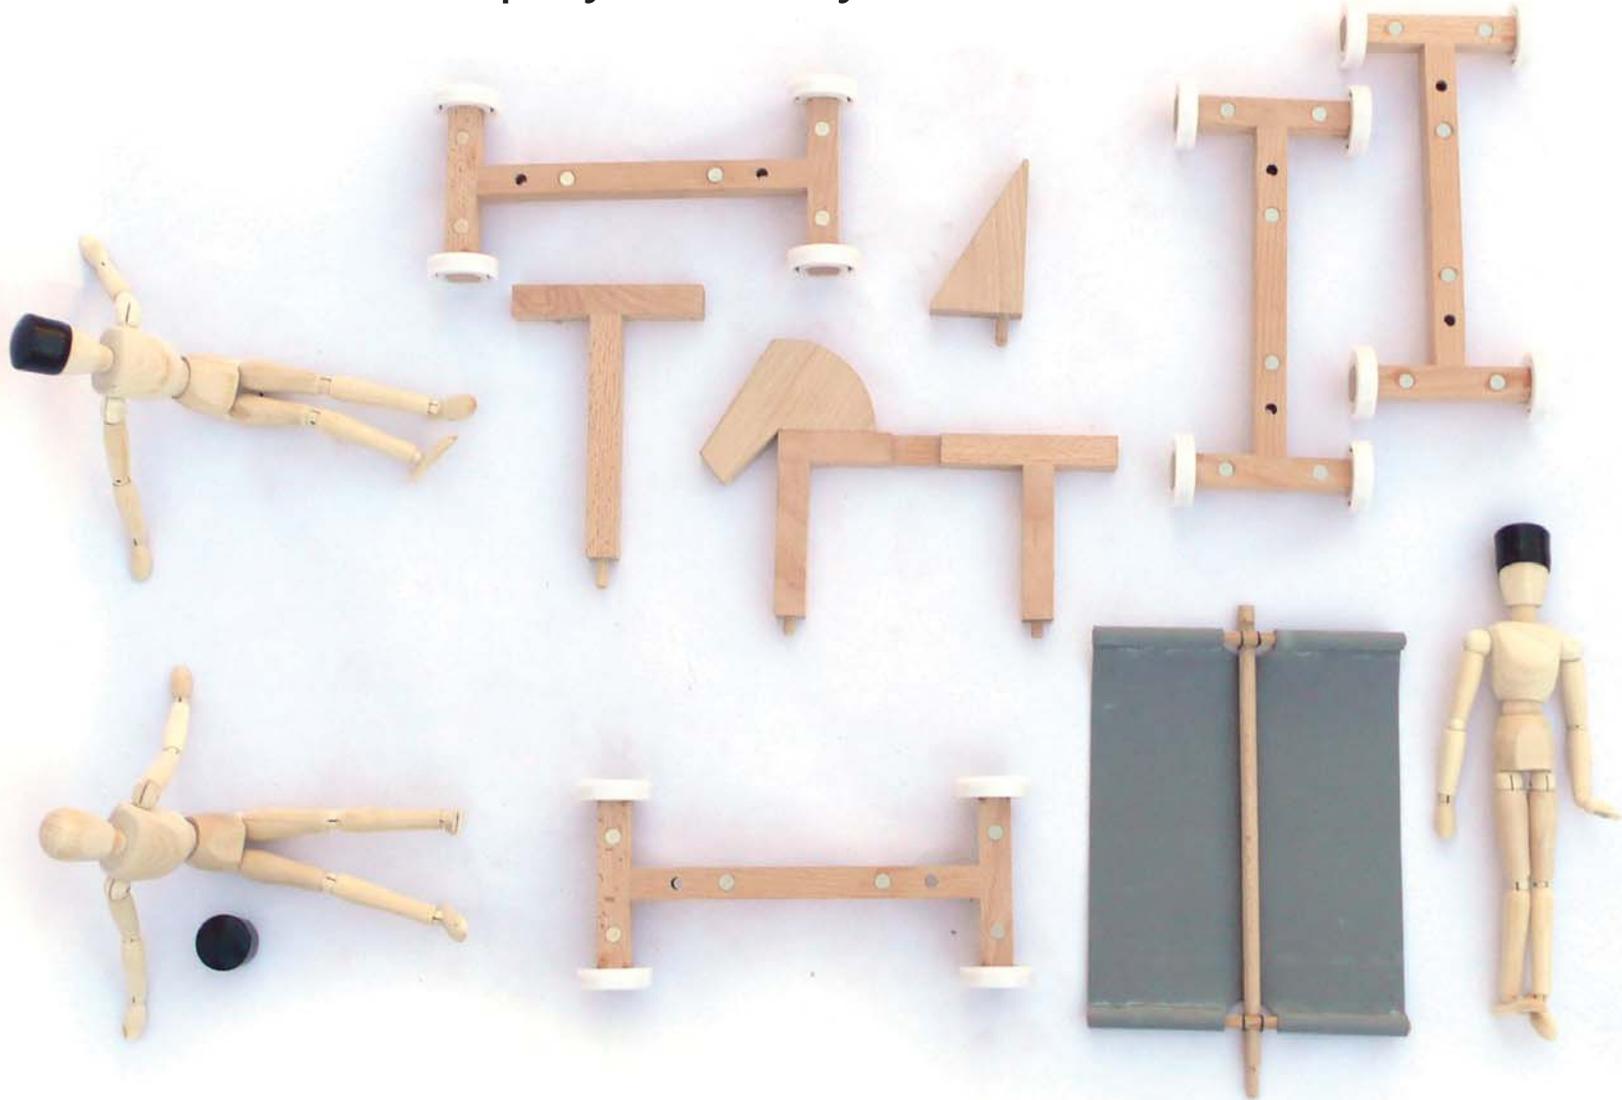

just 4 wheels

kid's fantasy just need few wheels
to drive into incredibles adventures.

4 professional ball-bearing wheels,
6 strong magnets and **1** special helmet
keep the driver safe
in the most acrobatic positions.

Various components multiply the possibilities.
The car becomes a horse. And then a sailboat, a cargo bike, a
skateboard.... Let kids play and they will devise a whole new world.
